During her years of blogging, Janice found not all in the blogging community were willing to help a new or less seasoned blogger. She decided to try to change that and in 2017 she created a blogger retreat to bring together a small group of bloggers. Bloggers helping other bloggers to grow. This first event, Glamping Bloggers, was very successful and produced 11.2 million Twitter impressions during the 4 days of the event. She then created We Grow Retreat for bloggers, an on-going, yearly event. In 2019 We Grow Retreat was hosted by Wyndham Garden Lake Buena Vista in Orlando and produced over 43 million timeline deliveries on Twitter.
